

Millennium³

Actual size

Evolution is a logical process !

3rd generation of logic controllers at the core of your industry

- **More** memory for your applications
- **More** comfort : largest display on the market
- **More** modularity in the number of inputs/outputs
- **More** simplicity for programming

Millenium3

With the new **Millenium 3**, take advantage of evolution in the latest generation of logic controllers.

■ Ladder Language

■ Function Blocks/SFC Language

- **The best answer to your needs** because of its modularity.
- **Take your applications still further** with the Millenium 3's extended memory.
- **Optimise your wiring and installation time** with our self-powered extensions.
- **Enjoy** the real comfort of the largest display on the market.
- **Program easily & intuitively** just select the language best adapted to your trade: **Function Blocks/SFC or Ladder.**

The new Millenium 3 range

“Software” with still better performance:

■ Software innovations:

- macro editing (grouping function blocks) with password protection,
- new functions making the software even easier to use : split programming windows...

■ Functions which adapt to your needs:

- basic functions (counting, timers, comparison, display...),
- trade functions (rotating pump operation, PID regulation, Movement, Pressure, Level, Flow rate...),
- accepts specific functions developed to customer request.

Optimised “electronics”:

- **Standards and extendable versions:** up to 50 inputs/outputs,
- **Inputs:** On/Off, potentiometer or 10-bit analog,
- **Outputs:** relay, static or PWM,
- **Mounting:** on DIN rail, or on panel using screws,
- **Integrated LCD display:** back-lit, 4 lines of 18 characters, scrolling screen, bar-graph,
- **Selective configuration:** choose which parameters can be adjusted from the front panel,
- **Saves your data:** for 10 years, even when mains power is interrupted,
- **Protects your programs:** with a password.

Offer Overview

Compact Millenium 3 range

■ “Standard” logic controller versions

- CD12 (8 inputs, 4 outputs)
- CD20 (12 inputs, 8 outputs)

CD12

CD20

■ “Blind” logic controller versions

- CB12 (8 inputs, 4 outputs)
- CB20 (12 inputs, 8 outputs)

CB12

CB20

Extendable Millenium 3 range

■ “Extendable” logic controller versions

- XD10 (6 inputs, 4 outputs)
- XD26 (16 inputs, 10 outputs)

XD10

XD26

■ On/Off extensions

- XR06 (4 inputs, 2 outputs)
- XR10 (6 inputs, 4 outputs)
- XR14 (8 inputs, 6 outputs)

XR06

XR10

XR14

■ 10-bit analog extension

- XA04 (2 inputs, 2 outputs)

■ “Sandwich” On/Off extension

- XE10 (6 inputs, 4 outputs)

XA04

XE10

Communication Modules and Accessories

XN03

XN05

Communication Extensions for 24 V DC Controllers

Connect your equipment to your monitoring systems with our slave extensions:

- **XN03:** Modbus Extension (exchanges four 16-bit words),
- **XN05:** Ethernet Extension (exchanges eight 16-bit words).

Modem Communication Interface

Access all the Millenium 3's functions remotely via the **M3MOD Modem communication interface:**

- Download, modify and transmit your programs,
- Using the management software, receive alarm messages automatically by SMS or on your PC,
- Interrogate and verify remotely the state of the inputs, outputs and all the variables in your programs.

The **M3MOD Modem communication interface operates with either of the 2 following Modems:**

- **STN** Modem for line transmission networks,
- **GSM** Modem for wire-less communication in isolated installations.

M3MOD

RTC

GSM

"Millenium 3 Alarm"
Software

"Starter" Kits

- One Millenium 3 logic controller, either "Standard" version (12 or 20 Inputs/Outputs) or "Extendable" version (26 Inputs/Outputs),
- One PC/Controller programming cable (USB-type connector),
- One multilingual programming software (CD-ROM).

Millenium 3 Accessories

- 3 modular power supplies: 12 V DC-22 W, 24 V DC-30 W or 60 W,
- Temperature and pressure sensors,
- Plug-in connectors to facilitate maintenance operations,
- IP 67 sealed front cover,
- Memory cartridge (EEPROM) to change programs easily and update the firmware,
- PC/Controller connection (Serial, USB or Bluetooth),
- External potentiometer control for tactile adjustments accessible to all,
- Remote displays:
 - LED 36x72: 4-digit numerical display,
 - back-lit LCD: alpha-numeric display and configuration,
- Current/voltage converters,
- Temperature converters,
- Multilingual programming software for PC (CD-ROM)...

M3 Kit

Applications - Adaptations

Millenium 3 Applications

With the Millenium 3's new functions, access a multitude of applications:

Controlling irrigation/
automatic watering

Access control

Automatic vending

Rolling advertising
boards

- Other applications: Automatic washing equipment, agricultural machinery, managing air conditioning and heating systems

Millenium 3 Adaptations

Crouzet can develop customised products, adapted to your needs :

- More inputs/outputs
- Dedicated connection
- Customised housing
- Develop dedicated trade functions
- Extended temperature range
- Specific extension module
- Epoxy-sealed Millenium 3 version for tough environments

Contact our salesmen and technicians with specialist Micro-control expertise, for your specific applications

Plug-in epoxy-
sealed Millenium 3

Extended bare
board Millenium
3 with 16 relay
outputs

Epoxy-sealed
Millenium 3 with
wire outputs and
pre-cabled harness
